

# IT Strategies and Solutions for Business Innovation

*Since 1989*

Huon IT is an IT consultancy firm specialising in strategic planning, managed services, project implementation and cloud initiatives. With offices in Sydney, Melbourne and Brisbane, Huon IT services small, medium and large organisations nationwide.

## What we do...

Huon IT's qualified team of IT professionals provide a range of services to ensure current and long-term business strategies are supported with a solid IT blueprint. Cultivating clients' wider business strategies with sound IT guidance, Huon IT has been delivering outstanding results to profit and non-profit Australian organisations for around 30 years, earning its reputation as a leading IT service provider.

## Strategic IT Planning

At the core of all Huon IT services is business strategy. Whether you require advice on system selection, internal resourcing, suitability of your current infrastructure or even your journey to the Cloud, Huon IT's independent advisory service and IT Health Checks help your organisation pre-empt possible setbacks and plan for success. Huon IT's advisory team provides you with scalable solutions to align IT with your business direction.

## Cloud Solutions & Disaster Recovery

Huon IT's Cloud solutions offer 'IT as a Service' to increase your organisation's flexibility and reduce capital expenditure. Customisable to meet your needs, Huon IT provides private, public and hybrid cloud solutions, including solid IT disaster recovery plans to safeguard digital records in the event catastrophe strikes and minimise downtime so business can quickly return to normal.

## IT Support & Management

Huon IT's outsourcing services range from stand-alone projects through to a full outsourcing model where all your IT needs are met. All services are shape-to-fit including 24x7 monitoring, proactive maintenance, helpdesk support including out of hours, and escalation support to complement your in-house team who can be freed up to focus on other core operations and business improvement initiatives.

## Transformation Projects & Upgrades

The dedicated project team at Huon IT designs, implements and manages projects of any size, such as major upgrades, infrastructure refreshes, virtualisation, storage, video conferencing, and office relocations. Huon IT will assess your requirements and provide a customised, scalable solution suited to your facility, staff and budget, and can either run the project from end to end, or simply assist along the way.

## Huon IT Provides:

- Independent advice
- Flexible access to IT experts without the overheads
- "Shape to fit" plan to suit changing needs

- Around-the-clock support
- Identification of IT risks and potential security breaches
- 100% guaranteed service level agreements

- Return on investment through cost efficiency review
- Strategic roadmaps for the future
- Confidentiality

## The History of Huon:

Huon IT was founded in 1989 by CEO Damian Huon, who saw a need in the market to provide customised IT services to Australian organisations. He has spent the past three decades building a team of talented and experienced professionals. His first client, Marsden's Law Group, continues to entrust Damian and the team 30 years on as Huon IT has consistently proven to be a trustworthy partner.

"Our clients appreciate Huon IT's consistent quality outcomes. It's something our team members are passionate about, and that I personally guarantee.

We're a dynamic operation that builds long term trust – many of our clients have been with us for decades, working together to achieve success for their future."

Damian Huon, CEO

## Proud to Service our Clients:

Our clients include a broad range of industries including legal, finance, aged care, education, media and more.
